

THANKSGIVING PROCLAMATION

BY THE GOVERNOR.

During the past year, Wisconsin has been favored with abundant harvests, our industries have increased and our resources have been developed. Prosperity has rewarded every commendable effort made for our advancement, and good health has prevailed throughout the state. In accordance with the time-honored custom, which annually sets apart a day for rendering thanks to Almighty God for the dispensation of His kind Providence, and for the peace and happiness He has vouchsafed our people, and in conformity with the proclamation of the President of the United States, I deem it my duty to designate **Thursday, November 20th** instant, as a day of Thanksgiving and praise, and to recommend that all public and private business be suspended on that day, and that the people be exhorted to the observance of the day for the many blessings they have enjoyed.

In testimony whereof, I have hereunto set my hand and caused the Great Seal of the State of Wisconsin to be affixed.

Done at the city of Madison, this 17th day of November, in the year of our Lord one thousand eight hundred and eighty-five.

By the Governor: J. M. RUSK.
 By the Secretary: E. G. TRAVIS, Secretary of State.

The Wisconsin cranberry crop is large this year, and it is estimated that the prices prevailing are such as to materially reduce the profits of the growers.

Yosemite is again in a state of eruption. The lava is streaming down on the west side of the mountain, and some alarm is expressed, as the observatory authorities believe that the eruption will become more serious than it is at present.

There is a great scarcity of laborers in the south, where railroad construction is in progress, and Chicago labor agents are drumming the northwest for men. They offer \$1.75 and \$2 per day, whereas railway laborers receive but \$1.00 in Wisconsin.

The president has selected Colonel R. M. Lazelle, inspector general of the department of the Columbia, as one of the officers to represent the United States at the British military maneuvers in India in January. The other officer has not yet been selected.

Of the wealth of the world, \$720,000,000 are owned by four men as follows: Mr. Mackay, \$275,000,000; Rothschild, \$200,000,000; Vanderbilt, \$175,000,000, and the Duke of Westminster, \$85,000,000. Their income per minute is \$25, \$20, \$18 and \$7 respectively.

There is no improvement in the condition of General Toombs, of Georgia, and, if anything, he is gradually growing worse, both mentally and physically. He at times has lucid intervals, when he seems to fully realize his condition, but these are of brief duration.

On an original map of the world, by which Alexander VI. divided the discoveries between Spain and Portugal, and which is now in the possession of the Vatican, all the present United States form a blank space marked "Terra Incognita," or, The Land of Godless.

The railroad Gazette reports a total of twenty-five miles of new track on three lines, making 2,235 miles that far reported for the current year. The new track reported to the corresponding date for five years has been: 1884, 3,245 miles; 1883, 5,410; 1882, 9,102; 1881, 6,241; 1880, 5,060.

La Crosse has a new bank, the Union National, with ex-Senator Angus Cameron as president; Messrs. Anderson, Vice president; and I. N. Perry, cashier. W. H. Holcombe, general superintendent of the Chicago, Burlington & Northern railroad, is one of the directors, and the bank will have the handling of all the railroad business at La Crosse.

After a continuous service of nearly 42 years on the bench of the court of common pleas, in New York City, Chief Justice Charles P. Daly will retire from the exercise of his judicial functions on December 31, carrying with him the esteem and respect of the members of the bar and the unsullied reputation of an upright judge among the people of New York state. With the single exception of the case of Judge Nelson, who occupied a judicial position for about 47 years Judge Daly's record is the longest ever made by a judicial officer in this country, and it is the longest ever made in New York. Judge Nelson's career covered both the state and the United States courts, while Judge Daly has sat continuously for over four decades in the court of common pleas, having been in that period five times reelected.

The Chicago Journal, of last evening, contains 13,333,216 bushels of wheat, 107,423 bushels of corn, 51,783 bushels of oats, 188,061 bushels of rye and 164,030 bushels of barley, making a grand total of 14,005,118 bushels against 14,373,210 bushels a week ago and 9,475,410 bushels at this period last year. New York and Brooklyn warehouses are stored with 9,895,457 bushels of wheat, 253,252 bushels of corn, 1,689,543 bushels of oats, 112,483 bushels of rye and 93,157 bushels of barley. Exports from seaboard last week included 134,190 barrels of flour, 210,500 bushels of wheat, 775,000 bushels of corn, 196,500 bushels of oats, 3,070 barrels of pork, 7,888,000 pounds of lard and 7,900,000 pounds of bacon.

Valuable supply of grain in the United States and Canada; wheat 53,100,000 bushels, corn 3,229,147 bushels, oats 2,897,172 bushels, rye 605,551 bushels, barley 2,070,977 bushels. The above figures as compared with those given week ago show an increase of 786,019 bushels of wheat, 10,227 bushels of rye and 108,356 bushels of barley, and a decrease of 611,070 bushels of corn and 83,454 bushels of barley.

In May of next year, an international exhibition of navigation, traveling, commerce and manufacture of all grades of machinery in motion illustrating process of manufacture, is to be held at Liver-

pool, Eng. The exhibition is intended to illustrate traveling by sea, land and air, and as alluded to the subject will also be shown exhibits representative of the manufactures and commerce of the world bearing upon the means and methods of movement from place to place. The products will also include a collection of models of vessels and ancient and modern illustrations of the moles and materials of their construction; engineering and other appliances, docks, harbors, light houses, life saving apparatus, and all other matter connected with traveling by water. In the department of land traveling, there will be exhibited chariots, cars, coaches and carriages of all countries and of all times, and the history of steam as a motive power will be fully illustrated by models, examples and technical appliances for the convenience of travelers and goods-while, in the commercial and manufacturing sections, there will be specimens and products of English and foreign countries.

THOUGHT IT IN BAD TASTE

Montreal's Mayor Orders the Tel-Color Down—Another Demonstration.

MONTREAL, Nov. 15.—The city has refused its usual appearance, and save for the broken windows and the tri-color at half-mast over the city hall, Monday's disposition is almost forgotten. A demonstration waited upon the city hall, represented to him that the flying of the tri-color over the city hall is in bad taste and calculated to produce irritation. The mayor said he thought it was a mistake and ordered it removed.

LATER—Three hundred students of Victoria university led by their president, La Rose, paraded the streets Tuesday night, shouting and yelling. La Rose bore a baton in the shape of a human bone and a transparency with a picture of Alfred Russel Wilson hanging in it. Wilson protested in the city council Monday at that body's action against the government. The students proceeded to the Wilson place of business, collected by a crowd of several thousand, and then marched to his residence, there burning Wilson in effigy in front of his door. Crowds gathered in the streets, and they marched to the Gazette office, where a flag was hoisted in honor of the burning of the Gazette. The crowd dispersed without making any trouble.

A great mass meeting of Rial sympathizers was arranged for Sunday. A new French Canadian National party has been formed on account of recent events. It will not antagonize English interests but patronize French-Canadian interests.

CANDIDATES FOR SUDDEN DEATH.

Miscreants in Kentucky Commit Robbery and Murder—Boy Burned to Death.

LOUISVILLE, Ky., Nov. 17.—Information was received here Tuesday morning from Mount Washington, in Bullitt county, of the robbery and burning of two dwellings and death of a boy in one of the fires. The first building destroyed was that of William Bryant, which was a large two-story frame. The family were attracted by cries of distress from the servants' quarters, in the rear of the second story. After receiving his own family Mr. Bryant hurried to the assistance of the servants, and succeeded in getting them all out except one boy, named Harry Bailey, aged 14. He could be seen running around in the flames, and once advanced to the window to leap out, but sunk down in the flames and was consumed. Just as the light of the fire was dying down a half a mile further down the road, the residence of William Ash was the victim. The family had scarcely time to escape in their night-clothing, so rapid was the fire. Mr. Ash seized a bureau drawer in his flight, in which he had secured \$1,000, but on examination he found the money had been stolen during the night.

CRUSHED BY A FALL OF ORE.

Three Men Instantly Killed and Several Others Injured.

ASHLAND, Wis., Nov. 17.—While the night shift were at work in the north vein of the Colby mine at Ashland, on the Lake Shore road, on the Ogishio river range, an immense volume of ore fell upon them. The accident caused the loss of three men, Herman Huppert, Charles Waagstad, and Herman Huppert, Jr., and Charles Waagstad were instantly killed and several others were injured. The ore fell from the top of the cut, a distance of forty feet.

Railway Wreck and Boiler-Burst.

PRINCETON, Nov. 15.—A serious wreck occurred on the Wausau division of the Milwaukee & Oshkosh railroad, about fourteen miles from Oshkosh, on Monday evening. A freight train, running at a high rate of speed, collided with another train standing at the water tank at Whitehall Station. The engine was derailed, rolling down an embankment, followed by several passenger cars, which exploded, blowing the engine and several cars into splinters, involving a loss of several thousand dollars. The engineer and fireman escaped by jumping. Several of the crew were badly but not seriously injured.

Race Ball Run in Council.

NEW YORK, Nov. 15.—A large number of managers of base ball clubs of the League and American associations were at the Fifth Avenue hotel Tuesday night, and a special meeting of the directors of the league was held. The business transacted was of a routine nature. The league championship pennant was presented to the Chicago League club, and the treasurer's report read and accepted. The directors are Maloney, Denton, Hamilton, Buffalo, Day, New York; Beach, Philadelphia, and President Nick Young.

Treated for a Thousand Dollars.

CINCINNATI, Nov. 15.—About 500 people were at Chester park Tuesday afternoon to witness the trot for \$10,000 between Mrs. Kate Bigher's Tom Rodgers and Jake Kanber's Deck Wright. At the sixth attempt the word was given and Tom went off his foot. He did not settle down until the three-quarter pole was reached. Wright won by a length. Time, 2:30 1/2.

In the Second Heat Wright beat near the finish.

The Cincinnati, Hamilton & Dayton stock, which he had illegally, as previously decided, issued certificates guaranteeing 6 per cent. per annum. This is the last act by which is asserted the independence of the Cincinnati, Hamilton & Dayton, which road is now under the exclusive management of its own directors.

'Said Aaron to Moses.

Let's cut off our noses.

Aaron must have been a sufferer from catarrh. The desperate remedy which catarrh produces often sufficiently make people say and do many rash things and many continue suffering just as if no such cure as Dr. Sage's Catarrh Remedy existed. It cures every case from the simplest to the most complicated form, and all the consequences of catarrh. A person once cured by Dr. Sage's Catarrh Remedy will not be apt to take cold again, as it leaves the mucous membrane healthy and strong. By druggists.

GLADSTONE DECLINES

PARNELL'S SUGGESTION THAT HE FORMULATE A PLAN

For Reform in Ireland, and Sincerely Leaves the Work to Parnell—The Balkan War a One-Sided Affair—Foreign Visions.

BRUSSELS, Nov. 18.—In a speech at West Calder, Tuesday, Mr. Gladstone said that Mr. Parnell had conveyed to him through the confidential medium of the newspapers the suggestion that he (Gladstone) should frame a plan for local self-government in Ireland. He would reply through the equally confidential medium of a public speech, his reasons for non-compliance with the Irish leader's suggestion. He would not be rash enough to volunteer to become the political physician of the Irish people, instead of the authorized doctors whom they sent to the house of commons.

Mr. Gladstone then compared the foreign policy of the Liberals with that adopted by the Conservatives, and pointed out the weak points in the latter.

Mr. Gladstone said the plan for a duty on corn was revolting, especially as the country had fought such duty for twenty-five years. If mining implements, he said, were subjected to a tax, bread and coal would increase in price. Referring to the depression of trade, Mr. Gladstone said there was no more plausible proceeding than the difficulties appeared than the appointment of a royal commission, which shifts a responsible load to irresponsible shoulders. He would not deny the existence of distress, though in its entirety it was less burdensome than the passage of the reform corn laws. He did not see what remedies had been presented by the present party in power. The present distress is confined to the agriculture and coal regions, but it can not be denied that food and clothing are cheaper now than ever before. The speaker devoted a considerable part of his address to this question. Through free trade the country has made great progress, and it will not retrograde. "See," he said, "the Liberal accomplishments: slavery abolished; trade liberalized; free suffrage extended, with many other blessings."

Referring to the foreign affairs Mr. Gladstone said the Soudan question was the most difficult matter of recent years. "We lost our error," he said, "but our opponents fostered the error. We held that it was impossible to remain in the Soudan, the incoming government declared it to be a mistake to withdraw and maintained that the British ought to remain in order to establish order. But they said that the evacuation of the Soudan had when they came into power, gone too far to be retracted and must be completed. The only complaint made by our opponents is that we did not commit more or greater errors."

Regarding Afghanistan he said the new government had adopted the frontier line already laid out, and complacently gave credit to the armor for having adopted their line. "They adopted our policy," he said, "and we are the only alternative." But for the result of the Liberal policy in Afghanistan he trembled to think of the consequences, one of which would have been meeting Russia allied with Afghanistan. Referring to Balkan affairs, Mr. Gladstone said he was not sure of anything in the Balkan policy of the Tory government of which he could reasonably complain. It was deplorable, however, that Serbia, without European intervention, had carried bloodshed into Bulgaria.

SERVANS GO MARCHING ON.

A Famine at Sofia—Quarantine Warfare Looked For.

SOFIA, Nov. 18.—The defeat of the Bulgarians at Dragoman pass and the advance of the Serbian army in the direction of the city have created a panic here. Many people are fleeing with their valuables, while others apparently know not what to do. BELGRADE, Nov. 18.—The Serbian officials admit the loss of 700 soldiers killed and wounded in the battle with the Bulgarians, which resulted in the capture of Adhijah by the Serbians.

VERINA, Nov. 18.—Snow is falling heavily

in the district comprising the scene of the Bulgarian war. It does not, however, affect the advance of the Serbian army toward Sofia. The battle at Tra lasted fourteen hours.

LONDON, Nov. 18.—Now that the Dragonian peace has been signed, the Serbian army has been ordered to the hands of Serbia. The fall of Sofia is hourly expected to be heard of. King Milan is reported to be rapidly pushing forward upon that capital. A Belgrade correspondent, however, prophesies that the Bulgarians will do their hardest fighting after the Serbian army enters Sofia, provided further attempts at the conquest of the country are made. The Bulgarians have always been more successful in the half guerrilla warfare which harasses the Serbian army than in a straight and thickly populated country, and in meeting large armies in open battle, and resisting the capture of strategic points.

Will Permit Fox-Hunting on Conditions.

DUBLIN, Nov. 18.—The National League has withdrawn its opposition to fox-hunting, upon the condition that obnoxious landlords shall not participate in the sport.

Two Views of the Visible Supply.

CHICAGO, Nov. 15.—Visible supply of grain in the United States and Canada: Wheat, 63,110,805 bushels; corn, 3,229,147 bushels; oats, 2,897,172 bushels; rye, 605,551 bushels; barley, 2,070,977 bushels.

New York, Nov. 15.—The visible supply

of grain as compiled by the New York produce exchange is: Wheat, 47,097,012 bushels; corn, 4,110,870.

The Maclean Case.

CHICAGO, Nov. 18.—Nothing further has developed in the Maclean case. The prisoner's attorneys will state that every effort will be made to have the supreme court decision reversed. The habeas corpus case has not yet been presented to the United States court.

Between the 27th last and the 25th of

December eleven persons are to be executed in Ontario and the northwest provinces.

COMMERCIAL NEWS.

JANESVILLE MARKETS.

Reported for the Gazette by Bump & Gory Grain and Produce Dealers.

JANESVILLE, Nov. 18, 1885.

FLOUR—Patent \$1.50 per sack; Vienna \$1.35 per sack.

WHEAT—Winter \$2.50; good to best spring \$2.55; common to fair, \$2.30.

RYE—In good request at \$2.20 per 50 lbs.

BUCKWHEAT—\$2.00 per 50 lbs.

BARLEY—Fair to choice samples \$2.00; low grades \$1.75.

COIN—Shelled per 50 lbs, \$7.25; now see to the \$2.25.

CHICAGO MARKETS.

CHICAGO, Nov. 18—2:30 P. M.

AS REPORTED FOR THE GAZETTE BY J. H. HANSEN, REPRESENTING L. EVERINGHAM & CO., GRAIN, MEAT, OIL AND PROVISIONS, 101 N. WABASH, CHICAGO.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.

Diys; eptic, whose digestive powers have become weakened and impaired, who are troubled with distress in the stomach, heart-burn, water-bash, etc. those who cannot enjoy a good meal without distress, will find in yellow skin a rennir-able relief and cure. A yellow skin, di-agreable taste in the mouth, coated tongue, restlessness, and entire want of vigor are some of the symptoms of liver trouble, all of which are effectually relieved. Constipation or habitual costiveness yields readily to Z-pasa; and, in a few months, an individual, but

acting directly upon the cause, and removes it without pain. Persons of sedentary habits (which is often the cause of costiveness and irregularity of the bowels) will find Zouave most efficacious; If you suffer from indigestion, heart burn or sick head ache, don't fail to try it. One bottle will relieve you immediately, and one large bottle will cure any ordinary case.

Price 6c. 25c. and 75c.
